Summary Section

Digital and data leader with deep strength in mathematics, statistics, and AI skilled at turning complex datasets into clear, high-impact decisions. I connect business and tech to deliver models and dashboards that improve growth, efficiency, and customer experience.

Education Background

Carnegie Mellon University   Aug 2022–May 2024
Master of Science in Information Technology   *Kigali, Rwanda*
Specialization in Applied machine learning, Data Science
University of Rwanda, College of Science and Technology   Sep 2015-Nov2019
BSc (Hons) in Computer Science   *Huye and Kigali, Rwanda*
Group scolaire Remera Rukoma   Sep 2012-Nov2014
High school certificate in Mathematics, Physics, and Computer Science *Kamonyi, Rwanda*

Work Experience

Global Green Growth Institute.   Nov 2024-Present
AI and Data Analyst   *Kigali, Rwanda*

- Designed a dashboard allowing policymakers to explore the Green Growth Index and data.
- Developed an online policy simulation model incorporating dozens of variables using a statistical and AI-driven economic model: https://ggindex-simtool.gggi.org/
- Took the initiative to decrease time spent on data collection and easy processing through pipeline automation.
- Support the drafting and editing of reports for publication.
- Trained team members in modeling and coding best practices.

United Nations/International Telecommunication Union (ITU)   Apr 2024- July 2025
AI for Good Scholar - Hybrid   *Geneva, Switzerland*

- Conducting research for the projects focused on AI for SDGs
- Analyse and improve the AI use cases.
- Communicating findings and insights effectively
- Collaborating with international use cases authors on AI projects

Global Green Growth Institute.   June 2021-Oct 2024
Data Science Consultant - Remote   *Seoul, South Korea*

- Collaborate with the GGPM Team to establish databases, tools, guidelines, and documentation. Conduct data collection, analysis, and reporting for the Green Growth Index and Simulation Tool.
- Develop Python scripts to extract data from international organization databases.
- Apply statistical methods to improve the quality and understanding of existing data.
- Maintain knowledge excellence and support capacity-building workshops and conferences for internal and external audiences.

Carnegie Mellon University.   Aug 2023-May 2024
Graduate Teaching Assistant (Data Analytics and Practicum courses) *Kigali, Rwanda*

- Assisting with course delivery using Python programming language
- Implementing AI algorithms for automated grading and performance assessment to ensure consistency and efficiency.
- Student Support and Engagement

ARED Group Inc.   May 2023-Aug 2023
Research Assistant -Remote   *Georgia, United States*

- Collaborate with the team to perform requirements analysis and research, leveraging AI tools for data insights and trend identification.
- Oversaw data collection using quantitative and qualitative methods.
- Share insights with teams using AI-driven visualization and reporting.

Rwanda Ministry of ICT and Innovation.   Sept 2019-June 2021
Digital Ambassador   *Kigali, Rwanda*

- Preparing ICT training for people to increase their digital literacy, resulting in increased access to ICT and the use of online systems and services.
- Updated course content depending on the user's adaptabilities.
- Creating and monitoring user-friendly templates for other team members used for reporting.

National Bank of Rwanda.   Jun 2018-Oct 2018
Intern   *Kigali, Rwanda*

- Offered tech support using a help desk app, including research-related tasks.
- Conducted researched local domains, banking security, and technology aspects such as networking, database, and data warehouse.
- Collaborated with departments to ensure smooth technology operations.

Ministry of Education   Jun 2016-June 2018
Data Entry Clerk   *Kigali, Rwanda*

- Accurately input and update data into various systems and databases.
- Verify the accuracy and completeness of data before entry.
- Perform regular data backups to ensure data preservation and maintain and manage digital and physical records.
- Conduct regular data quality checks and correct any discrepancies.

Skills

- **Programming Languages & database:** Python, JavaScript, Vue.js, C, C++, Java, QSL, Access, Oracle database, PostgreSQL
- **IT skills:** LINUX, Windows, Git, Bash, Microsoft Office all versions, drow.io, GitHub, and GitLab,
- **Statical software skills:** Stata, SPSS, Tableau, Power BI, R, MATLAB, and Advanced Excel
- **Deep Learning:** CNNs, RNNs and GANs
- **Machine Learning Frameworks and Libraries:** TensorFlow, PyTorch, Scikit-learn and Keras
- **Natural Language Processing (NLP):** Text mining, Sentiment analysis and Language modeling

- **Languages:** Kinyarwanda (Native), English (Fluent), French (Basic), Swahili (Basic)

Public Service & Volunteer Work

Rwanda Space Agency & CMU-Africa.   Jun 2023-April 2024

Research and Data Analyst   *Kigali, Rwanda*

- Acquiring, cleaning, and organizing data from various sources.
- Applying statistical methods and creating visual representations to identify trends and insights.
- Support Agri-yield research with spectral signatures and machine-learning modelling.
- Working with stakeholders and team members to address data-related issues and provide actionable recommendations.

United Nations.   Jul 2019-June 2021

Volunteer   *Kigali, Rwanda*

- Engaging in practical mobilization efforts to generate funds for the Cameroon Association of Active Youths (CAMMAY) by utilizing social media platforms for impactful outreach and fundraising initiatives.
